Organizational Behavior

## ANSE SUMMER UNIVERSITY 2017

### “MOVING & BEING MOVED”

*Supervision and coaching in a rapidly changing world*

21-25 August 2017, Rotterdam

The Dutch Association for Supervision and Coaching (LVSC) is delighted to announce the international Summer University 2017 being organised in partnership with the European Association ANSE and the Master Human & Organisational Behaviour of Rotterdam. The conference takes place between 21 and 25 August at Rotterdam University of Applied Science.

This is a unique event about ‘moving & being moved’ for supervisors and coaches featuring several inspiring international keynote speakers, several workshops and scope for the international intervision groups (IIG) as organised by ANSE.

#### **Moving and being moved**

We live in what seems to be an ever decreasing world. Airports and their surroundings look more and more alike. At the same time, differences close to home seem to get bigger. Talking to a neighbour may feel as if you are speaking to someone from another part of the world. Which may be the case...

Borders between countries are becoming blurred, as are the borders between organisations, teams and professions. As an individual, we can take nothing for granted. The possibilities for giving substance to your life or work seem endless and adjustable at any time. The wide range of perspectives in the external world is reflected in the internal world, in which the individual unites many, sometimes even conflicting, roles.

Our society is also described as a VUCA world: Volatile, Uncertain, Complex and Ambiguous. In this moving world, individuals, organisations and societies feel the need for security. For example: the trend to standardise in organisations, the consolidation of the current dominant neoliberal culture, the strengthening of external borders, the call for preservation of identity at different levels and the expression or suppression of strong emotions.

Master Human &  
Organizational Behavior

During the Summer University, we explore the implications of the field of tension between security and mobility for coaching and supervision on an individual, team and organisational level.

Detailed information about the programme, (international) keynote speakers and workshop leaders, 'moving' excursions in booming Rotterdam and registration will follow soon on our website [www.SU2017.eu](http://www.SU2017.eu). The main language during the conference week will be English.

#### **Six reasons for attending the Summer University 2017:**

1. Inspiration from international well known speakers
2. Active participation in various international workshops
3. A boost for your professional development
4. Meeting colleagues from all over Europe
5. Establish an ANSE-international intervision group
6. Experience Rotterdam from the inside

Save the date! We look forward to meeting you in Rotterdam in the summer.
